Description

JVC's new dome camera puts everything you'd want from a surveillance camera into a stylish design. The TK-C685 Series incorporates a newly developed Direct Drive Motor for its pan/tilt mechanism to ensure long-term preset position accuracy that far outshines conventional belt-type drives. It also contributes to lower operation noise, which is essential for use in hospitals, museums and other quiet environments. With its high-performance and host of intelligent features including Motion Detection, Auto Tracking, and Private Masking, the TK-C685 Series makes your surveillance system more powerful and reliable for a wide array of usage environments.

Main features

- 27 x Optical Zoom
Powerful enough to monitor the face and hands of the person, the Day/Night function and Super LoLux technology ensure secured night time monitoring.
- 0.01 deg. Super Accuracy
Greatly increasing accuracy of Pan/Tilt position by Direct Drive Motor mechanism.
- Fastest / Slowest Pan Tilt operation
The fastest Pan/Tilt movement of 400 deg/sec enables changing the position quickly, The slowest Pan/Tilt movement of 0.04 deg/sec enables observe carefully at high zoom magnifications.

Additional features

- Silent mechanism
Greatly decreasing operation noise of Pan/Tilt movement by Direct Drive Motor mechanism.
- One-touch Lock Easy installation
Quick and easy installation and maintenance by One-touch Lock mechanism. No need to secure it to the bracket with screws.
